

Holiday Spray™ Make a Scene!

How To Use Holiday Spray

1 Prepare Surface
HolidaySpray is intended for outdoor use on windows/non porous surfaces by adults.

2 Attach Stencil
Attach your stencil to the window surface by using painters' tape.

3 Masking
Be sure to mask off the window trim to prevent any overspray. Also place tape or paper over the parts of the stencil you do not want to spray.

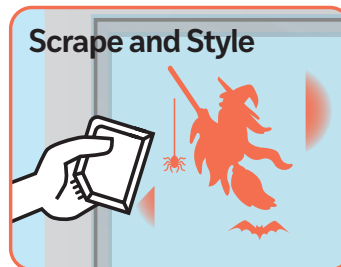

4 Shake Well
Shake can for 20-30 seconds before and between each spray.

5 Spray Evenly
While holding can in upright position 9-12 inches from intended area. Depress actuator to spray product on test material. Spray using short bursts until you familiarize yourself with usage.

6 Remove Stencil and Any Overspray
When dry, carefully remove stencil to reveal image. Use the included detailer to carefully remove any overspray or add your own custom details.

7 Make a Scene!
Repeat the process with more stencils and colors.
